Application Escrows and Financial Securities:

An **Application Escrow** and Deposit Agreement are collected with a land use application to pay for the review of a land use application by City consultants such as Attorneys, Traffic Engineers, and Soil & Water Engineers. A deposit agreement must be executed that states that the applicant will replenish the account balance when it falls below \$500. The balance of the escrow will be refunded after the City determines that there are no outstanding charges to be billed against the account for review of the application.

A **Development Agreement Financial Guarantee** ensures the completion of public and private improvements that have been required by the City Council. The amount of a financial security is calculated by the City Engineer at 125% of the estimated cost of the required improvements to be installed by the applicant, along with any additional administrative or installation costs. The balance of the financial security is refunded when work has been completed in compliance with City standards and specifications.

A **Certificate of Occupancy (C.O.) Financial Guarantee** is a guarantee in the form of cash or irrevocable letter of credit that is collected if a Certificate of Occupancy (C.O.) is requested prior to the completion of all required site improvements. The guarantee shall be 125% of the estimated cost to complete the improvements and must include an executed agreement that authorizes the City or its agents to enter the premises and complete the required improvements if they are not completed by a reasonably stipulated deadline, with the cost of such City completion to be charged against the financial guarantee.
